winemaker's notes Sweet wine our way — Sweet P. Sweet P is our take on what happens when you give Muscat Canelli the Peltier treatment: keep it bright, keep it balanced, and don't let the sweetness steal the show. At 21.2 g/L residual sugar, it's definitely sweet - but with medium acidity and a touch of natural effervescence, it's a true example of an "off-dry" style of wine — our version of sweet.

pairings Try sweet with sweet or sweet and spicy like: orange panna cota, cheesecake, shortbread, orange olive oil cake, fresh sushi, ceviche, chinese food - cuts through oil, fried fish tacos, izakaya, Korean bbq
